Mass production is not our goal. We're more like a big carpentry workshop carrying out customized orders.

The origins of Inter Door date back to the 1990s, when we carried out our first orders. We manufacture interior doors, residential entry doors, glass doors, sliding doors, anti-burglary doors and fire doors.

welcome
THE DOORS ARE OPEN

The key for the functioning of the Inter Door brand is listening to customers and meeting their most sophisticated expectations. Following global trends and news, we strive to offer completely fresh and original designs.

DOORS FROM NATURE

We are constantly inspired by the Nature. We have the deepest respect for it; it is one of our most important partners.

Our headquarters is located in the Tri-City Landscape Park, which is a perfect environment for creative work.

ALBA FREZ doors will appeal to people with a taste for minimalist forms. These models do not feature intarsia - the only ornaments here are millings, and within them lies the greatest charm. They are ideal for modern, minimalist interiors. There are several types of millings available, from 1 to 4 lines.

ALBA NATURA is a sophisticated combination of modern design with the natural charm of veneer. Our designers focused on achieving a subtle contrast. It is the result of the combination of vertically oriented patterns, distributed over the entire leaf, with two narrow strips, with the pattern arranged transversely.

For enthusiasts of minimalist forms, we can offer stripes in the same finish as the entire leaf. For customers looking for slightly bolder accents, we propose solutions using two completely different colours. What is interesting in this model is that the horizontal stripes can be stretched further, so that they can reach the broadened architraves

FRESA is an elegant model, inspired by the style of chic tenements. Although it was created to emphasize the character of apartments with soul, it is much more universal. Thanks to the right combination of milling and frame, it surprises with its visual lightness - perfectly fitting into the climate of both classic and modern interiors. To further emphasize the uniqueness of the interior, additional features can be used, such as a decorative crown, a RETRO frame and a decorative handle.

TOWER & TOWER STRONG

are stylish entrance doors that will become the showpiece of any apartment. Thanks to the two-colour version, their appearance can be freely matched to both the interior of the apartment as well as the dominant colors in the corridor or staircase. Their excellent sound insulation will also become appreciated just as quickly.
